Education

Master of Science, Business Analytics 2024 – 2025
University of Massachusetts Amherst, GPA 3.9 / 4 *Amherst, USA*

Bachelor of Technology, Computer Science 2019 – 2023
SRM Institute of Science and Technology, CGPA 9.2 / 10 *India*

Technical Skills

Languages: Python, Java, SQL, TypeScript, Algorithms & Data Structures
Core Competencies: Distributed Systems, Large-Scale Computing, Scalability, Information Extraction, Web Applications, Metric Monitoring, Build & Testing
Backend & Data: FastAPI, REST APIs, React, Kafka, Airflow, Apache Spark, Celery, PostgreSQL, Amazon Redshift, Snowflake
Cloud & DevOps: AWS, GCP, Azure, Azure Kubernetes Service (AKS), Docker, CI/CD, GitHub Actions, Git
AI / ML & Practices: RAG/LLM Systems, LangChain, LangGraph, Qdrant, MLflow, MLOps

Experience

Data Engineer Aug 2025 – Jul 2026
Community Dreams Foundation *USA (Remote)*

- Owned and built a new AI platform end-to-end – FastAPI backend, Qdrant RAG pipelines, LLM orchestration, SSE streaming – improving information retrieval efficiency by 60% for community program queries, from design through production.
- Automated manual, CLI-driven data ingestion and deployment workflows into standardized CI/CD pipelines, eliminating a release bottleneck and cutting operational overhead.
- Built evaluation, drift detection, and observability into the production service, reaching 90% accuracy on grant and outreach content (right context, right audience, as scored by an LLM judge) while tracking latency and cost.
- Replaced hours of manual grant and outreach message writing with an AI agent, then added an MLflow evaluation pipeline with an LLM as judge and set criteria, cutting processing time by 60%.

Software Developer Mar 2024 – May 2025
University of Massachusetts Amherst, Auxiliary Services *Amherst, USA*

- Built MLOps pipelines covering training, evaluation, versioning, and deployment across AWS, GCP, and Azure, giving research ML/DL models a repeatable path to production.
- Developed APIs that embedded ML models into research workflows, partnering directly with researchers to translate open research questions into deployable systems.

Software Developer Intern Jun 2021 – Aug 2021
Supa Ventures Pvt Ltd (Blitz Jobs) *India (Remote)*

- Built event-driven Kafka + Airflow pipelines processing 50K+ events/day with retry logic and fault-tolerant design for high-volume reliability, cutting failed jobs by 90% while owning the work across the full SDLC.

Software Developer Intern Apr 2021 – Jun 2021
Unschool *India (Remote)*

- Built backend REST API endpoints in Python and introduced systematic peer review and Git-based workflows, driving test coverage to 80%.

Projects

JobHunt Agent | *LangGraph, Multi-Agent Systems, LangChain, FastAPI* atmika1807/jobhunt-agent

- Built a LangGraph job-search agent: finding relevant roles went from hours to 5 minutes, with outreach to 925 HR contacts

AIOps Incident Intelligence System | *LlamaIndex, LangGraph, RAG, Isolation Forest* Private project

- Built agentic incident triage: evidence-backed diagnosis with human escalation; LlamaIndex, LangGraph, Isolation Forest

Enterprise GenAI Control Tower | *FastAPI, Qdrant, MLflow, RAG* atmika1807/Enterprise-GenAI-Control-Tower

- Built a production RAG system: hybrid retrieval, re-ranking, SSE streaming; 94% Hit@5, p95 under 200 ms

Smart Crop Management Dashboard | *Python, FastAPI, React, scikit-learn* atmika1807/-Smart-Crop-Management

- Built a Decision Tree crop model on WSN data with a FastAPI + React dashboard; IEEE ICCCNT 2023

Azure Incident API | *Python, FastAPI, Docker, Azure* atmika1807/azure-incident-api

- Built a breakable FastAPI service for observability: Application Insights, KQL runbooks, Azure DevOps CI/CD

Log Analytics Pipeline | *Kafka, Airflow, PostgreSQL, Python* atmika1807/Log-Analytics-pipeline

- Built a Kafka, Airflow and PostgreSQL log pipeline; a composite index cut dashboard latency by 35%

Sahai 2.0 Wellness Companion | *React, FastAPI, PostgreSQL, Python* atmika1807/Sahai-2.0

- Built a full-stack AI wellness prototype: React, FastAPI, PostgreSQL, Claude API, JWT, chat and journaling

Certifications: Forage job simulations (Electronic Arts, Deloitte, Walmart, Verizon, Tata, BCG, Bank of America, Quantium); DataCamp, Accenture
